

Analyze is a modern, simplified and interactive approach that empowers users to access, discover and report all types and sizes of IT inventory data. With a spectrum of increasingly advanced analytics, from basic reports to interactive visual analysis, users can analyze and visualize data across multiple dimensions, all while minimizing dependence on IT.

Our reporting capabilities span the entire continuum from self-service interactive reporting to highly formatted enterprise reporting. With Analyze, you can create detailed, pixel-perfect, and interactive reports in a simple drag-and-drop UI.

Make information-driven decisions with Analyze.

About Flexera

Flexera is reimagining the way software is bought, sold, managed and secured. We view the software industry as a supply chain, and make the business of buying and selling software and technology asset data more profitable, secure, and effective. Our Monetization and Security solutions help software sellers transform their business models, grow recurring revenues and minimize open source risk. Our Vulnerability and Software Asset Management (SAM) solutions strip waste and unpredictability out of procuring software, helping companies buy only the software and cloud services they need, manage what they have, and reduce compliance and security risk. Powering these solutions and the entire software supply chain, Flexera has built the world's largest and most comprehensive repository of market intelligence on technology assets. In business for 30+ years, our 1200+ employees are passionate about helping our 80,000+ customers generate millions in ROI every year. Visit us at www.flexera.com.
