

Helping federal agencies gain IT intelligence

Advance mission readiness with authoritative technology intelligence

Federal, civilian, defense and intelligence agencies operate in highly siloed, segmented and even fully air-gapped environments where accurate technology intelligence is difficult to maintain. Flexera delivers authoritative, continuously enriched asset data that remains reliable across connected, classified and disconnected networks. This unified intelligence strengthens cyber readiness, reduces operational risk and supports mission-aligned decision-making across every domain.

Mission-focused capabilities for federal agencies:

Authoritative IT inventory and discovery

Deliver comprehensive, accurate, always-current visibility across your federal IT environment

Normalization, deduplication and enrichment

Convert messy discovery data into normalized, enriched, high-accuracy insights

License intelligence and compliance automation

Automate entitlements and licensing compliance with trusted catalog intelligence

Contract, maintenance and investment intelligence

Unify contract, maintenance, and usage data to control cost, reduce risk, and prioritize mission-aligned investments

Operational integrations (ServiceNow, Axonius and more)

Power ServiceNow, Axonius, and more with clean, mission-ready asset intelligence

Cyber-aligned visibility and risk reduction

Enhance cyber readiness by identifying vulnerable tech and aligning with Zero Trust and federal mandates

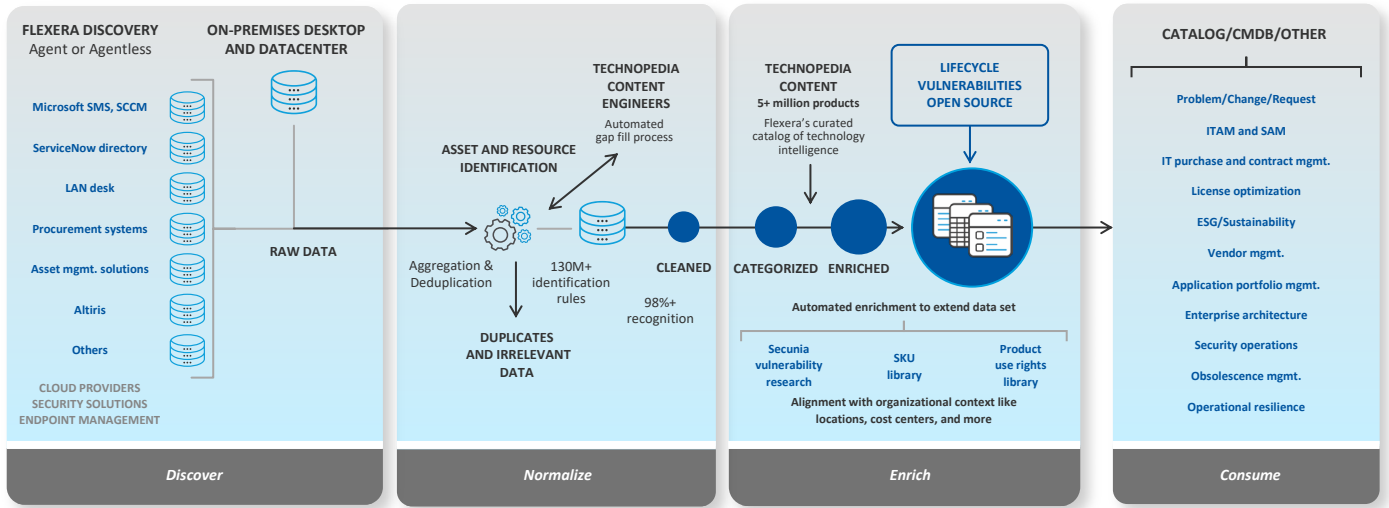

Hardware lifecycle, currency and rationalization analytics

Optimize hardware spend and reduce risk with clear lifecycle, currency, and rationalization insights

Automated asset operations

Automate asset operations with continuously clean, accurate data that replaces manual tasks with intelligent workflows.

Advance your mission with trusted technology insights

Enhance IT accuracy, reduce cyber risk, optimize technology investments, and support modernization using a unified data foundation that strengthens every operational workflow.

About Flexera

Flexera helps organizations understand and maximize the value of their technology, including the rising costs and risks introduced by AI, saving billions of dollars in wasted spend. Our Flexera One platform connects the dots between what technology you have, how it is used, what it costs, and where it creates risk, helping teams take control of the increasingly complex IT estate across cloud, SaaS and on-premises. We are leading the way to unify IT asset management, FinOps and SaaS management with high fidelity data from Technopedia, our proprietary reference library of technology asset data, and intelligent automation fueled by AI. That's why thousands of global organizations rely on the Flexera One platform and Technopedia. Learn more at flexera.com.
