

Proactive audit defense and license optimization

Quickly achieve a defensible license position and reduce software spend with trusted usage insights and built-in optimization

» AT A GLANCE

Your organization can't afford to wait for results. Even small teams can find savings quickly with Snow Atlas, a cloud-native solution. Uncover opportunities to ensure compliance, and optimize usage to go into your next renewal, getting the best deal. Share insights with stakeholders across your organization so the entire enterprise can drive positive outcomes—everything from identifying cost savings to risk reduction.

Customers report dramatic results with **Snow Atlas**:

The Department for Education Key had £60,000 in initial cost savings, and a 122% achievement in end-of-life software reduction, greatly enhancing IT security and resilience.

Memorial Health reduced time to identify software installs from 8 weeks to 1 hour and saved unbudgeted expenses of \$3M over 10 years.

Vodafone launched a cross-functional, multi-country initiative to identify, trace and remove unwanted applications leveraging user insights and deny/authorize lists.

KCB Bank Kenya avoided \$23M with software optimization and proactive license compliance.

Use cases

» Identify unused licenses

Stop paying for more licenses than what's needed

» Consolidate and normalize inventory

Use pre-built connectors or the Flexera inventory agent to consolidate, normalize and enrich your hardware and software inventory across your multi-tenant environment

» Always be audit ready

Ensure licenses allocated and used are aligned with software entitlements

» Clean CMDB

Leveraging ITSM Enhancer, enrich your CMDB with clean normalized IT asset data from Snow Atlas

» CAPABILITIES

Asset discovery and inventory

Identify and consolidate hardware and software asset data and licenses with methods such as our agent, API connectors and our REST APIs.

Application usage metering

Optimize software spend, reduce compliance risk and uncover shadow IT with visibility into how applications are actually being used across your estate.

Native integration with IT service management (ITSM) tools

Flexera offers integrations with ITSM tools (such as ServiceNow) via ITSM Enhancer, providing seamless insights to improve service desk operations.

Financial/entitlement inventory

Save time and reduce errors with AI-based importing of entitlement data (contracts/invoices/POs/quotes).

Allow/deny lists

Use allow and deny lists to help your security team find use of software that shouldn't be installed.

License compliance reporting

Automatically match entitlements to licenses applied to calculate your effective license position (ELP). Data verified by Oracle (Oracle Databases, Oracle Java, Oracle E-Business Suite, Oracle Middleware).

Asset normalization and enrichment

Verified by more than 75 domain experts, Flexera's AI-based catalog normalizes and enriches over 800,000 applications across 110,000 manufacturers.

Cost optimization insights

Automatically identify optimization opportunities for the most cost-efficient license required, and find underused or unused licenses.

Data extensibility

Leverage ITAM data to improve IT processes, automate data with our read and write REST APIs, and programmatically update asset metadata and trigger bulk updates.

Hardware asset management

Automate management of hardware lifecycles by getting a quick view into hardware details, warranty status and mapping to users and apps.

Security and peace of mind are standard

Snow Atlas provides a range of data storage locations across the world—including Australia, the U.S. and Europe—to enable customers to meet their data residency and privacy requirements. Our solution is proven to be safe and secure with industry SOC 2 Type 2, ISO/ISE 27001 and Cloud Security Alliance: STAR certifications.

Implementation options

Flexera offers implementation options that work with your unique situation. These include:

- Self-led with Flexera onboarding services
- Partner-led with partner onboarding and optional customization services
- Partner-led outcome driven managed services

Work with your Flexera account representative to determine the best option for your organization.
