

Visualize Your IT Data to Make Better Business Decisions

With Analyze, now you can:

- Obtain a broad set of powerful interactive visualizations
- Access analytic dashboards for business insight
- Gain comprehensive solutions for reporting
- Get easy-to-use interactive and operational reports
- Streamline management and administration

Make data-driven decisions using advanced reports with Analyze

Analyze, an out-of-the-box feature included with Flexera’s Data Platform solution, is a modern, simplified and interactive approach to empower your access. It discovers and reports all types and sizes of IT inventory data. You can analyze and visualize your enriched data across multiple dimensions with a spectrum of increasingly advanced analytics and reports. These capabilities span from self-service interactive to highly formatted enterprise reporting. With Analyze, you can create detailed, pixel-perfect and interactive reports in a simple drag-and-drop user interface.

NEXT STEPS

Gain insight into your technology environment with Data Platform.
