

Flexera Partner Program

Building partnerships to power
Technology Intelligence and drive innovation

Partnering with Flexera: The intelligent choice

For over 30 years, Flexera has helped organizations understand and maximize the value of their technology, saving billions of dollars in wasted spend. Powered by the Flexera Technology Intelligence Platform, our award-winning hybrid IT asset management and FinOps solutions provide comprehensive visibility and actionable insights on an organization's entire IT ecosystem.

Flexera is the leader in AI-powered technology intelligence and optimization for hybrid IT, empowering our customers to maximize the value of their investments in hardware, software, SaaS, and cloud.

With this innovative technology, we're reaching and empowering more organizations than ever before, and we couldn't do it without our amazing partner ecosystem.

This is Flexera.

At Flexera, we see our partners as a true extension of our team. You enable us to expand our reach, deliver more effective outcomes and accomplish our joint goals. The main goal of the Flexera Partner Program is to build long-lasting, value-driven partnerships in which our partners can succeed and grow with Flexera. By joining this program, you are gaining access to best-in-class technology that will help you to differentiate, stay relevant and uncover new revenue streams.

What sets Flexera apart

Delivering positive business outcomes

As a customer-centric organization, we will never stop innovating to empower our customers with the latest technology needed to see and manage all technology in their IT estate. By helping to deliver that comprehensive visibility, our partners realize positive business outcomes as they enable customers to make data-driven investments that foster growth and reduce waste.

Expertise

We offer our partners free-of-charge training courses with the flexibility to gain sales, pre-sales and technical certification. We also recently launched a new shadowing program to ensure that we share all our best practices and impart our knowledge onto our partner ecosystem. Our Flexera Learning Center courses will ensure that you have the appropriate knowledge and skillsets to position Flexera products and meet your customers' technical needs and requirements.

Partner profitability and growth

Our partner pricing is structured to maximize your profitability and accelerate your growth. We give you the flexibility to choose how you engage with Flexera while driving your business goals and customer success.

Differentiation and value

Flexera believes that data is the key to unlocking hidden savings, operational efficiency and ongoing resilience across organizations of all sizes. We help global organizations realize the power of their technology by enabling them to truly understand and manage it effectively. This ability is called **technology intelligence**, and it represents a market of opportunities worth billions of dollars for Flexera and its partner ecosystem.

By bringing together visibility and actionable insights, organizations can mitigate risks and drive cost optimization. As a result, they can invest their newfound savings in programs and projects that will differentiate them in a competitive market. Partnering with Flexera is a choice to stay at the forefront of the Technology Intelligence conversation for your customers and become a critical component in your customers' innovation plans and future investment strategy.

With its growing technology ecosystem of integrations and APIs, the Flexera Partner Program is built to help current and future partners guide customers through the unpredictable. Customers will then be able to create more innovative, resilient and agile businesses by tapping into the power of Technology Intelligence.

Our program, your way

Decide on your level of engagement with Flexera and choose the right program tier to support your operating model and business requirements.

 **Advisor**
